Rumored Defeat and Capture of Gov. Gaines's Party-Safety of the Point Orford Party. By the arrival of the bark Louisiana and

the steamship Columbia at San Francisco, we have dates from Oregon to the 22d July. A remor prevailed at Asteria, at the time of the

sailing of the Louisiana, which awakened fears for the safety of Gov. Gaines and party, who, when last heard from, were at a crossing of Rogue's River.— They had been in pursuit of Indians, and, it was re-ported, had been surprised and captured by an over-

They had been surprised and captured by an overwhelming force.

The iroops in the hostile Indian country, under
Gen Lane, had had several skirmishes with the Indians at last accounts, and succeeded in driving them
into the mountains, killing 40 or 50 and wounding a
large number. None of his men were killed, and
but two of them wounded. About 30 prisoners had
beet taken, who, in charge of Maj. Kearny, had been
marched into this country.

It was thought that the Indians were not disposed
to give further battle, and so Gen. Lane had gone
into the mines, breaking up his camp. He was expected to return to the river settlements in a few

The principal feature of the Oregon intelligence is an account of the safety of Capt. Kirkpatrick and the party under his command, who were reported to have been missed from Point Orford, under circumstances justifying a suspicion that they hadbeen murdered by the Indians.

The Spectator learns that the Government has instructed the Superintendent of Indian Affairs to go or and treat with the rest of the Indian Affairs to go or and treat with the rest of the Indian Affairs to go or and treat with the rest of the Indian affairs to go or and treat with the rest of the Indian affairs to go or and treat with the rest of the Indian affairs to go or and treat with the rest of the Indian affairs to go or and treat with the good of the building of a hospital for them, and that reservations may be made on their lands for them.

It is mentioned that Capt. Tichenor has landed a second party at Point Orford, determined to prosecute his plan of establishing a permanent settlement at that place. It consists of forty well-armed men.

Capt. Kirkpatrick publishes in Tae Oregon States san a full account of his adventures after having reen left by the Sea Guil art Point Orford.

NICARAGUA.

Breaking Out of Civil War.

The Civil War which from our last previous advices seemed inevitable in Nicaragua, has at last broken out, as we learn from the following letter from our correspondent at San Juan :

San Juan De Nicaragua, Friday, Aug. 22, 1831.

On the evening of the 4th inst., at Leon, General Musioz, the Ex-Minister of War, at the head of a small body of troops, took prisoners the President Don José Laureano Pineda and all of his Cabi net, except Dr. Jesus de la Rocha, and sent them to Port La Union, Tigre Islands from whence the Brit ish Reamer took them to San Juan da la Concordia. The Senate immediately assembled at Granada

for Leon, the capital, was in possession of the insur-genta, and elected Don José del Montenegro, President, Dr. Jesus de la Rocha, Secretary of Finances Dea Fermin Ferrer, Secretary of Foreign Affairs Don Buenaventura Silva, Secretary of War.

The Munroz faction elected Don Justo Albaunza readent Don Arcediano Soliz, (a friar.) Secretary of Fereign Affairs: Don Eugenio Matus, Secretary of Finances, Gen. Muñoz, Secretary of War.

The people of the State of Nicaragua do not acenowiedge the Muñoz administration, and the next information I receive from the seat of difficulty, I expect will be the capture or assassination of

confirms the above :

To the Editor of The New-York Tribune GRANADA, (C. A.,) Thursday, Aug. 7, 1851.

A serious revolution has broken out at Leon. On Sunday last, the Supreme Director (President) and his whole Cabinet were arresetd by order of General Muñoz, who, yielding to the solicitations of the Leonese party, put himself again at the head of the Military force of the State; and by the use he made of his power, anticipated a similar measure against himself, which was ordered to be executed the next day. According to one report circulating here, all the members of the Government have been shot by order of the General. Another report says that they were banished from the country and sent on board a vessel just sailing from Realejo for California. During the time in which this happened, the Cameras (Congress) were assembled in extraordinary session at Managua. When the news arrived, they elected a new Director Supremo, and then dispersed. The elected is Don José del Montenegro, a man whose state of health makes him unfit for the exertions of so dangerous a position. At Leon another Director Supremo appears to have been elected, I cannot tell by whom, and the name of Senor Abaunza, a member of the Senate, is mentioned here. The report says that the General is marching his army against Granada, the main seat of the Timbuco party.

If this is the case, it is much feared here the General will not be able to prevent the Indians, who form part of his army in the quality of irregular troops, from pillaging the city. The foreigners living here will take no part in the hostilities between the two parties, but will take neasures to protect themselves.

If you want to know my opinion of what has happened, I cannot but confess that I think it for the interests of civilization. It is not lyet time to give you my reason for this judgment. A few gentlemen just now here, and some others, more n your neighborhood, may have a different opinion; but the general interest appears to me not to coincide at all with their speculations. Julius Fræber.

Mr. FREBEL writes as follows, five days later, after he had received more detailed and exact information :

To the Editor of The N. Y. Tribune GRANADA, Wednesday, Aug. 13, 1851. The communications concerning the Leonese Revolution, which form the contents of my last letter, want some amendment, which I hasten to make, being enabled to do so by the statements of a gentleman just arrived from the Capital. It was not by order of General Muñoz, according to these statements, that the Director and his Ministers were arrested; it was the act of the leaders of a party composed of civil as well as military men-a party which may have acted in agreement with the General, but not as his instrument. The municipality of Leon was entirely for the revolution. It was this corporation which elected a new Director Supremo in the person of the Senator Abaunza, and the new Director reinstalled the General dismissed by the government of Mr. Pineda. This gentleman, together with the two Ministers Francisco Castellon and Francisco Dias Zairata, who had been arrested with him, have not been shot, nor transported to California, but have been banished to the neighboring State of San Salvador, where they are obliged to live under a Government entirely in favor of what has happened in Nicaragua. And the same is the case with the Government of Hondaras. With this remark, I am touching the more important point of the whole fact. The revolution, in its chief character, is a movement of the Federalists or Coquimbos. Representatives of the three States of Nicaragua, San Salvador and Honduras, have been as-Party organization appears to have commenced in Organ. The Democracy of Marion County assembled and published an address to their partisanspirited fellows, on the 4th of July last. or aristocrats of Nicaragua and the government of Mr Pineda, representing entirely and exclusixely this faction, have formed the chief obstacle in the realization of the Federal Union. When the revolution broke out at Leon, the representatives of the three States, assembled at Chinandega, were quick, therefore, to acknowldge the government of Mr. Abaunza. Thus he revolution has been sacctioned by an authorey which, though it may be called incompetent to that act, will yet be regarded by many as the highest authority in the three States, and if General Muñoz should really be obliged to march against Granada and Rivas, his army would be reinforced by troops from San Salvader and Honduras. The gentleman to whose statements I am indebted for these particulars, says that it was the intention of the General to march from Leon on the 14th, that is to-morrow. We may expect, he says, the best discipline among the troops,
If we review the laws and acts lately passed

by the Legislature of the State, we find them bearing a strong testimony to the bad melinations as well as the incapacity of the party which has held the power, and held it in the Legislative as well as in the Executive Departments. The great mass of the people have generally taken very little interest in and notice of political affairs. All these laws are retrograde. One of their chief characteristics is the shocking restrictions upon and bad intentions toward foreigners wishing to settle in the country. You would be really astonished at the particulars, which may be called monstrous. There may be some few gentlemen, who, judging not from experience, but from their own wishes, may be of a different opinion in respect to the liberality of that government toward foreigners. With Mr. Pineda, the Canal Company might have succeeded indeed, in making a new contract, by which the Company would have got rid of the obligation of either really constructing the famous Atlantic and Pacific Ship. Canal, or of proving its impossibility. This would have turned privileges and monopolies, which have been conceded as an equivalent for the execution of an immense project, isto a reward for making some twenty Indians work a few months at twenty-five cents a day; indeed, in my humble opinion, the most clever speculation which ever came into a Yankee's head But unfortunately the Company's Charge d'Affaires, arrived on the eve of the crisis which put an end to the liberality of Mr. Pineda and his friends. Mr. Kerr, the U. S. Minister, has lived at Leon till now in the quality of a private gen-

JULIUS FROEBEL. We have also been favored with the following extract from a private letter, from a

reliable source, dated SAN JUAN, Monday, Aug. 25, 1851. There is something like a revolution in the inte-

rior, (Nicaragua.) Sr. Pineda of Riras, who was elected President, and Mr. Castellon, whom he appointed Secretary for Foreign Affairs, have been deposed and sent out of the country, to Pt. Avenue in Costa Rica. Gen. Muñoz has been declared Direc tor, it is said, is in possession of the arms, and is supported by the troops, who are in his favor. Commis. sieners have arrived from Grasuda at this Port, to purchase arms, but brought no money, and consequently failed in their purposes.

Proclamation of one of the New Presidents.

Our correspondent at San Juan has forwarded a copy of the proclamation issued by Schor Montenegro, the new Supreme Director appointed by the Legislature in the interest of the Timbuco or Aristocratic party. We translate it for The New-York Tribune as follows :

The Senate, the Supreme Director to the Inhabitants

of Nicaragua Appointed with the imperative duty of giving account to the People of my legal mission, and of the events which have occasioned my eleva tion to the Executive Government, I propose now to address you with that object.

In the night of the 4th inst, the Supreme Director, Don José Laurana Pineda and his Ministers, Don Francisco Castellon, and Lieut. Col. Don Francisco Dias Zapata, were thrown into prison in the city of Leon, in consequence of a military meeting resulting in the performance of an act of disloyalty, and of contempt for the constitutional authority of the Legislative and the Executive Government. As soon as this transcendently wicked and outrageous act was known, the Chamber of Deputies, by virtue of the power conferred in the 111th article of the fundamental Charter, appointed me, to the office I now hold, by a decree, bearing date on the 5th inst., completely authorizing me by another decree of Assembly issued on the same day, to restore public order, which has been disturbed solely in Leon by the before named military conspiracy.

I at once proceeded to the organization of ministry, calling Senor Don Jesus de la Rocha to occupy the portfolio of the Treasury, he having actually been named thereto by my predecessor; he is also now discharging the affairs of the War Department, in order to the prompt execution of matters therein. Don Fermin Ferrer occupies ad interim the Department of Relations. The Government is earnestly engaged in the organization and raising of the forces required to sustain the authority of the laws and of civilization against the attacks of the conspirators. Men and naterials of war are actively accumulating in this city; in San Fernando, Jimopeke, Munagua, and in the Department of Mediodia, troops are being raised for the same purpose, and the disturbers of public tranquillity will soon be put down. The Assembly having been transferred to this city, will also devote itself to the great enterprize of social regulation.

Nicaraguans! the Government relies upon our courage and patriotism and upon your conecration to the defense of the rights of the country, traitorously trampled upon in one of the chief places of the State, and in the presence of a people irritated at such villany and outrage. Without your cooperation vain will be the efforts of the Government, and then the stranger will flee affrighted from our shores and our territory. and the epoch of our prosperity and social good fortune will be delayed or even lost forever. Peace, Union, Liberty are the hymn of civiliza tion that we ought to raise at the foot of regener-tion and progress planted upon the Isthmus of Nicaragus.

Jose DEL MONTENEGRO.

Granada, Aug. 8, 1851.

Arrival of the American Minister.

We cut the following from The Nicaronga Flug of July 24, (this is the first paper in the English language published in that country; it

on the Director to Rivas, where he was received with open arms by the Prefect and Commandante of the place, who accompanied him from the Lake coast to the Pacific shore. After beholding the waters of the magnificent ocean, and viewing the transit route and probable connecting point of the projected Ship Canal, Mr. K. again returned to this city, highly delighted with the trip. He left Granada last Friday morning on his journey to Leon, to present his credentials to the Nicaraguan Government, and enter upon the discharge of his official duties.

His Secretary, Mr. Isaac McKim Bowly, (who speaks Spanish fluently) also arrived in this city last Sunday morning, the 20th inst.

At the request of a native of this country, who suggested to him the propriety of having his baggage properly guarded on the road, Mr. Kerr made application to the authorities of this city, who promptly furnished him with a file of soldiers for that purpose.

Sudar Plantations—Messrs, Myers & Deshon, from Modaic and New Orleans, have purchased a large tract of land near Realejo, where they inlend opening a sugar plantation. Dr. Livingston, of Leon, late American Consul, has, we understand, entered largely into the culture of the sugar cane. The cane of this country is said to be superior to that of Louisiana or Cuba, and can be cultivated to great perfection. No better opening for the investment of capital exists anywhere. Indeed, it is very evient that Central America must be to California and Oregon what the West Indies have hitherto been to our confederacy. Sugar, cotton, coffee, cocoa, rice, indigo, tobacco, maize—in short, all the staples and Oregon what the West limits have induction over a confederacy. Sugar, cotton, coffee, cocoa, rice, indigo, tobacco, maize—in short, all the staples and fruits of the tropics—are produced in Nicaragua in the greatest abundance. There are a large number of cattle estates in the country and hides, with indigo, coffee, Brazil-wood and India-rubber, form the principal articles of export.

CASE OF CARNAL. - COURT OF OVER AND TERMINER.-Argument was heard on the motion to set aside the verdict in the case of Carnal, found guilty of murder foot of Dey-st, on the ground that the officer in charge of the Jury told them, as if from the Court, it was a case which did not come under Manslaughter. A preliminary objection was raised by the District Attorney, that the affidavits of the Jurors could not be read, as their verdict, agreeably to the English decision of 1770, was the best evidence of their intention , and, second, that this Court is not Court of general jurisdiction, and its power ends at revising, at the close of each session. Mr. C., in reply, said this case was different, there having been a mistake made by the Jury, founded on the repreentation of the officer in charge.

> SERIOUS RIOT ON THE NEW-JERSEY CEN-RAL RAILROAD-ONE MAN KILLED AND TWO WOUNDan .- The Plannield Gazette of yesterday morning earns, through Mr. Shattuck, the Conductor of the Passenger Train, that a serious riot took place on donday between two parties of Irish laborers work ing on different sections of the road. Those upon the Upper Section, numbering 300 men, armed with ucks, bars, &c., came down to attack those of the Lower Section, who it seems were prepared for hem, and were armed with muskets, which they had been secretly transporting up the railroad in small quantities for several days previous. Upon the aitack of the upper party, the lower fired and three sien fell, one dead and two severely wounded, when they fied to the woods, where they continued the fight. A party were arrested at Elizabethtown on Tuesday afternoon, having in their charge a quantity of muskets with which to continue the fight. The riot was not quelled when the down train left yesterday morning, and it was thought that unless effectual means were taken, a still more serious disturbance would grow out of it. He alleges that be lost and Certificate, &c., and that the Land Warrant based upon them was sent from Washington to Mr. Thompson, who is a broker in favour of Nolan, and brings action in the nature of the old action of Trover to recover the value.

In defence it was stated that Mr. T. received the Warrant, he did so in the course of his business, and transaction was settled.

In defence it was stated that Mr. T. received the Warrant, he did so in the course of his business, and transaction was settled.

The suit was brought under the law not permiting transfers, and the question is whether there was any evidence of transfer, &c. Verdiet this forenoon.

James Fergason against Jas. R. Waiting, Win. Norries and A. D. Clement.—Suit for alleged combination and trespass, damages lad at \$25,000. A suit, it will be recollected, was brought by Mrs. Ferguson against Mr. F., the plaintiff, for divorce, on the ground of misdeinty, in which she obtained a verdiet, and in two subsequent new trials, which were allowed on application of Mr. F., she was also successful. It was shown then that Mrs. F., previous to her marriage and afterwards, kept a millinery establishment, and had loaned to the Baptist Caurch, of which she was a member, \$2,000, on the bond of the Church—but that subsequent to her marriage, and before the suit for divorce, the Church was requested by Mrs. F. to pay to her the money, she giving up the bond in her favor, and it was re-loaned, the Church giving the second bond to Mr. Norris, a friend of Mrs. F. Dr. Clement, one of the defendants in this suit, was the family physician of Mrs. F. Mr. F., since the divorce suits, sued the Church to recover the \$2,000, claiming, in his right of husband, possession of it, but feally we believe, unsuccessful, on account of the

family physician of Mrs. F. Mr. F., since the artoric suits, sued the Church to recover the \$2,000, claiming, in his right of husband, possession of it, but finally, we believe, unsuccessful, on account of the new law giving to a married woman the property belonging to her before marriage.

Mr. Whiting was the counsel in the divorce suits, onbehalf of Mrs. Ferguson, and the action was founded on the state of health of Mrs. F., and as to clothing, in which Dr. C. gave testimony.

The present action, brought by Mr. F. is on the ground of combination to influence Mrs. F. taking away lines, the other two witness with Mr. W., coming to house of Mr. F., No. 106 Amos st., on or about Sept. 27, 1844, and the first two piacing themselves, in a back room to overhear conversation in the front, between Mr. W., and Mr. F., and that by said influencing, Mrs. F., &c., plaintiff was injured to the amount of \$10,000, lost the affection of his wife, and was injured in his peace of mind, &c. He brings suit to recover damages, amount placed as stated \$25,000. Mr. Norris does not reside in the city, and the suit is defended by Mr. Whiting, and Dr. C., who in their answer unequivocally deny every point setup.

The testimony was principally as to what Dr. C.

who in their answer unequivocally deay every point setup.

The testimony was principally as to what Dr. C. and other witnesses testified to in the divorce suits. It was said in defense, that, at the time Mr. W. and Dr. C. were together at Mr. F.'s house, they were so by previous understanding with Mr. F., and that he refused afterward to do what he had previously agreed to—that a difficulty arose between him and Mr. Norris, and he ordered Mr. N. out of the house, it was also said that Mr. F. ordered Dr. C. out of the house at the same time, but this was denied.

It was shown that, in the transfer to Mr. Norris by the Church of the bond, Mr. F. had previously objected to the Church transferring it, but that Mr. Price, the Clerk, subsequently, at request of Mr. Norris, went withlatter to Mr. Whiting's office, who told Mr. P. that the Trustees could legally make the transfer. The Court though that this was a legal transfer. The Court though that this was a legal to the court of the case rested. The Court said that in regard to Mr. Whiting there was not a scintilla of testimony Mr. Whiting there was not a scintilla of testimony Mr. Whiting there was not a scintilla of testimony Mr. Support of any part of the complaint against him,

and as to him he would order the complaint to be dismissed. As to Dr. C., the only point that can be for the Jury is as to whether he was ordered out by Mr. Ferguson at the time spoken of, and if he re-mained after being so ordered out, so as to be tres-pass. The case was submitted on the part of defense, to be concluded this forenoon.

SINGULAR AND FATAL ACCIDENT.—An interesting lad, about 13 years of age, named Wyllyn Ames, who was a clerk in the extensive iron stare of Messers Davenport & Sipper, doing business at Ne St Broad-st, was, as is supposed, almost instability killed Wednesday afternoon while a play in the third story of the store. It appears the deceased was atmissing himself on the rope used for hoisting goods, and when in the hatch door, which fell, striking him on the breast, and pinned him to the sill or foundation of the door, where some time after ward he was found dead—the breath probably having been found from his body so that he was mable to give the alarm. The attaches of the store removed the body to the office and notified the Coroner, who will hold an inquest this morning. Every attention was paid to the remains of the deceased by those connected with the store. The parents of deceased reside at No. 120 Degraw-st., Brooklyn.

Accident on the Eric Railroad.

Accident on the Eric Railroad.

To the Indices of the N. Y. Tribone.

Hornwayllas, Monday, Sept. 1, 1851.

A collision, probably fatal to two persons, occurred at the Railroad Crossing west of this place, at 101 this morning. As the Express train from Runkink twinch does not stop here and was a few minutes behind time; approached the highway crossing, a man and woman, in a one-horse wagon, were noticed on the highway going in the same direction with the cars. The engineer seeing their danger, gave the usual signals, but the infaltuated man urged on his horse and drove at full speed under the sign.

"Railraoan Crossing, Look out you fine Cars." just in time to be struck by the Locomotive. As soon as the train could be stopped it was run back, when a horrid scene presented itself. In the ditch along-side the road, were strewn, for three or four roles, the dead horse, the broken fragments of the wagon and its contents, and the man and weman senseless, though breathing the man with his head and leg badly hurt, the woman with her skull broken and her whole dress drenched in her own blood. They were taken into the nearest house and a physician sent for to Philadelphia, but both are probably fatally injured.

No blame can in this case be attached to the En-

No blame can in this case be attached to the En-No blame can in this case be attached to the Engineer, but is it not incumbent on all our railroad companies, and would it not be wise for them to spare their passengers such scenes and prevent even foolbardy and intoxicated persons from thus sacrificing their lives, by adopting the English plan of carrying their road over or under every highway crossing, and where this is impossible, fencing off the highway by a swing-gate, to be closed by an attendant whenever a train is due. The lessened risk having their trains thrown off the track would pay the expense of this in a single year.

The Engress train thus belated ran from Hornells.

The Express train thus belated ran from Hornella-ville to Corning. 42 miles, in 56 minutes, a speed that would take them from Dunkirk to New-York in 10) hours.

FIRE AT NEWTONVILLE .- On Monday Fige at Newtonville.—On Monday morning the store of Mr. Alexander, at Newtonville, Mass., was destroyed by fire, supposed to be the act of a robber and incendiary. Over the store was a large and furnished hall occupied by the Episcopal Society, and occasionally used as a ball room. It contained an organ, which was destroyed. An adjoining building, occupied as a carpenter's shop and private bowling alley, was also consumed. The country seat of Wm. R. Horton, Esq., ef Boston, was in imminent danger and was only saved by the unremitting exertions of Mr. B. B. Taylor of Louisville, who was visiting Mr. Horton.
